

# TRANSFORMING HEALTH CARE LEADERSHIP THROUGH TEAM-BASED LEARNING.

Today's health care teams face a growing need for interprofessional collaboration, creative problem solving, and impactful leadership training to drive organizational performance. SYNC is an innovative, team-based learning experience that teaches collaboration and leadership through hands-on problem solving.

“I loved SYNC and how it was a catalyst in having us examine our processes and find ways to **improve leadership** that directly **impacted patient care**.

— HOSPITAL STAFF PARTICIPANT

## VIRTUAL SESSIONS

The core of SYNC's program is built around workshops where teams learn about interprofessional collaboration and leadership from our nationally recognized faculty of field practitioners and our knowledgeable support staff.

Throughout the program, participants have access to consulting support and an online portal providing additional guidance, resources, and skills training. Participants sharpen their individual skills while building a multidisciplinary team on each member's strengths.

## 1 TEAM

SYNC is an immersive learning experience for health care teams of up to 7 participants, ranging from practice managers and CMOs to pharmacists and LPNs. Organizations are allowed to send more than one team, but each team must include a physician and registered nurse in addition to other clinical and administrative staff you choose to send.

Teams learn together and tackle issues collectively with a new interdisciplinary lens and toolkit of skills.

## 1 CHALLENGE

Teams get the chance to put the latest developments in interprofessional collaboration, leadership fundamentals, and creative problem solving to use during the SYNC Capstone project.

Capstone projects allow each team to identify a **current challenge** within their organization or community and apply new concepts to achieve tangible results for organizations.

During the final workshop, teams present their project and share their learnings with the cohort.

## SYNC SESSIONS

ALL SESSIONS VIRTUAL  
**8:30AM-11:30AM**
