

TRANSFORMING HEALTHCARE LEADERSHIP THROUGH TEAM-BASED LEARNING.

Today's healthcare teams face a growing need for interprofessional collaboration, creative problem solving, and impactful leadership training to drive organizational performance. SYNC is an innovative, team-based learning experience that teaches collaboration and leadership through hands-on problem solving.

“I loved SYNC and how it was a catalyst in having us examine our processes and find ways to **improve leadership** that directly **impacted patient care**.

— HOSPITAL STAFF PARTICIPANT

6 SESSIONS

The core of SYNC's program is built around workshops where teams learn, share, and practice skills aimed at **enhancing leadership, collaboration, and problem solving**, with our nationally recognized faculty of field practitioners and our knowledgeable support staff.

Throughout the program, participants have access to consulting support and an online portal providing additional guidance, resources, and training. Participants sharpen their individual skills while building a stronger multidisciplinary team.

1 TEAM

SYNC is an immersive learning experience for healthcare teams of up to 6 participants, ranging from practice managers and Chief Medical Officers to pharmacists and Licensed Practical Nurses. Organizations are allowed to send more than one team, but each team should include a physician and registered nurse in addition to other clinical and administrative staff you choose to send.

Teams learn together and tackle issues collectively with a new interdisciplinary lens and toolkit of skills.

1 CHALLENGE

Teams get the chance to put the latest developments in interprofessional collaboration, leadership fundamentals, and creative problem solving to use during the SYNC Capstone project.

Capstone projects allow each team to identify a **current challenge** within their organization or community and apply new concepts to implement a real world solution.

During the final workshop, teams present their project and share their learnings with the cohort.

SYNC SESSIONS

VIRTUAL VIA ZOOM
8:30AM - 12:00PM

SESSION 1 OCTOBER 21	SESSION 2 NOVEMBER 18
SESSION 3 DECEMBER 9	SESSION 4 JANUARY 6, 2023
